

## Pilot's Briefing

- Adhere to **No Fly Zone**, **Flight Paths** and use **Throttle Management** on East Runway.
- All 30cc Gas Engines and larger, as a minimum, must have large expansion Pitts Mufflers, if available.
- All twin cylinder gas engines must have Can Mufflers, as a minimum, if available.
- **All aircraft** must be properly propped to **reduce noise** and all Aircraft must have **effective** Mufflers.
- Only **three** Aircraft, in the air, at any one time. Flight Priority Pole, if used, must be observed.
- No flying before **9:00 AM**. Absolutely no taxiing in the Pits.
- Jets and 50cc or larger Propped Aircraft must be started in the preparation areas outside the Pits.
- Any Three or more Members have the authority to ground Aircraft which exceeds the Club's Noise Guidelines. The Pilot is expected to comply with the request and resolve the issue with his Aircraft. See Guidelines on the Club Website for more Details.
